Satwinder Jeerh

Profile

IT student specializing in full-stack web development, IT infrastructure support, and DevOps automation. Experienced in building web applications, managing enterprise IT systems, and writing deployment scripts across Windows and Linux environments. Proven technical lead skilled in automating workflows and streamlining system deployment.

Education

Bachelor of Information Technology — Major in Web Development

Holy Angel University
2023 - 2027

2-time President's Lister

4-time Dean's Lister

Experience

Endpoint Automation Engineer Trainee

Cloudstaff

July 2026 — October 2026

- Managed the end-to-end endpoint lifecycle, conducting hardware assessment, cleaning, assembly, QA testing, and deployment for enterprise units.
- Engineered automated scripts to streamline repetitive provisioning tasks and accelerate deployment workflows.
- Diagnosed and repaired faulty hardware and software units escalated from Tech Support and external departments.
- Spearheaded a team of interns to deliver core supervisor-led projects, optimizing workflows to meet key project deadlines.
- Provided direct operational support to engineering supervisors by troubleshooting issues and executing high-priority technical assignments.

Skills

Full-Stack & Web Engineering: PHP, JavaScript, HTML5/CSS3, MySQL, NoSQL, REST APIs, Git/GitHub, Responsive UI Design.

IT Infrastructure & Systems: Hardware Diagnostics & Repair, Windows & Linux Administration, Network Troubleshooting, Endpoint Lifecycle Management.

Technical Leadership & Mentorship: Team coordination, delegating tasks, and guiding peers through complex technical workflows.

Problem-Solving & Critical Thinking: Isolating board-level hardware faults, debugging software issues, and engineering automation for repetitive tasks.

Adaptive Communication: Communicating effectively with engineering heads, immediate supervisors, cross-functional teams, and non-technical stakeholders.

Certifications

CompTIA ITF+ — CompTIA, 2023

Responsive Web Design — FreeCodeCamp, 2024

Google UI and UX Design Specialization — Google, 2023

Relational Database — FreeCodeCamp, 2025

Legacy JavaScript Algorithms and Data Structures — FreeCodeCamp, 2025

AWS Academy Graduate - Cloud Foundations — Amazon Web Services, 2026
